| <p>Fujitsu Services is a re-branded and restructured remnant of ICL South Africa. The organization has decreased in size from, I believe, around 1800 to just over 120 today by way of numerous business unit disposals and retrenchment programs.</p> <p>Fujitsu seeks to enter into mainstream infrastructure outsourcing and IT Managed Services mainly in the Mining, Manufacturing, Retail and Public Sectors.</p> <p>The organization had just about completed the organizational transformation when I joined in January 2005.</p> |                               |

# CURRICULUM VITAE

## Key Roles/Involvement

In terms of the dual titles being held (Sales Director and Commercial Executive), I was responsible in the main for the management of sales activities and marketing campaigns relating to new Managed Services and Infrastructure outsource services and back into the organization as mentor and agent for change within the organization as a whole.

Notable contributions included the deployment of formal sales processes and models for strategic sales engagements. I also developed an offerings roadmap in line with apparent organizational strengths and competency objectives and assisted our service delivery organisation to align themselves accordingly.

## Major Deals signed

Imperial Tankers (R18m)

Cummins Diesel (R12m)

|                         |                     |
|-------------------------|---------------------|
| <b>COMPANY</b>          | EDS South Africa    |
| <b>EMPLOYMENT DATES</b> | Jun 1995 – Dec 2004 |
| <b>POSITION HELD</b>    | Client Executive    |

EDS is primarily an IT Outsourcing organisation, which focuses on leveraging its global presence and intellectual capital to the benefit of client organizations. The main service offering are:

- Operations (Infrastructure, Desktop Support, Mainframe, Midrange and related services
- Solutions Consulting (Applications development and support including ERP platforms such as SAP, Baan etc.)
- Product Life Cycle (CAD/CAM and related integrated product life cycle management products)
- AT Kearney (Strategic Consulting, SCM and other high-level consulting offerings)

## Key Roles/Involvement

As Client Executive I was primarily responsible for the overall sales growth, financial and delivery performance of EDS into our current manufacturing client base in South Africa. A major part of my role was to deploy strategic initiatives with clients and then leverage EDS global capability to implement the projects flowing out of those engagements. Annual revenue growth on the accounts averaged out at around 22% p.a (Approx. R15m of new business on the accounts p.a), averaging around 25% account or unit margin (Gross).

## Outsource Accounts in my portfolio:

Nissan SA

AEL

Dulux

Afrox

DOW Chemicals (Global account)

SKF (Global account)

## 1995 to 1997

## Key Roles/Involvement

### Principal Consultant

Engage in consulting and project management activities in support of EDS' account delivery strategy, including work with Implats and Amplats. This included leading a successful engagement with Afrox culminating in the design of a new business model for their very lucrative hospitality business and project managing the implementation thereof.

## Bid and Account Manager

## Key Roles/Involvement

- Managing various bid teams including:
  - Amplats
  - Telkom
  - SAA
- Manage and construct the bid and proposal for a 10-year outsourcing contract with Anglo American Platinum
- On sale of the contract, manage the new Amplats account for EDS (Some 46 IT people), including:

# CURRICULUM VITAE

- Data Center Mainframe and Midrange Services
- Wan Services (For JCI)
- LAN and Desktop Services (JCI)
- SAP implementation and support
- Managing all aspects of the account including HR, Financial performance, SLA performance and business development
- Managing the activities and contracts of 3<sup>rd</sup> party IT suppliers
- Setting up and maintaining relationships with customers at Senior Management and Board level

Besides working as a financial consultant for the SAP team, I was also a member of EDS Enterprise Solutions Leadership team and as such:

- Provided input into ES implementation methodologies (became an accredited FI/CO SAP R/3 consultant)
- Conducted Business Process Re-engineering (BPR) training
- Assist where possible on implemented sites.

I was approached by an e-Business drive, and as EDS was just undergoing an unpopular change in CEO, I decided to accept the offer. Without these changes, I do not think I would have left EDS.
